

# Environmental policy

## Australian plastic profiles

---

APP is a producer of plastic pipes, plumbing fittings for Pipe King and various profiles made from PVC in NSW. We recognise the expectations of our own staff, suppliers, customers and the community in relation to environmental protection and product quality.

We commit to managing our environmental effects and wastes in compliance with our legal obligations and our commitments to the Product stewardship program. Furthermore, we will strive to continually improve all our operations

### Commitments

- Work to achieve the environmental expectations of our staff, customers, suppliers and local community.
- Apply best practice standards for environmental management.
- Improve efficiency of operations to minimise water and raw material use, energy consumption, waste and pollution generation; in particular to:
  - Minimise PVC usage and recycling PVC waste
  - Recycling cardboard paper and wood
  - Recycling steel ,rags, oil filters and oil
  - Reducing electrical energy usage
- Eliminate the use of lead based stabilisers
- Create awareness among our staff and suppliers of the potential environmental effect of operations with which they are involved, and how they can work towards minimising these environmental effects.
- Continue to conduct regular assessments of the environmental effects of our business to identify potential areas for improvement, and to follow through with programs to achieve these improvements.
